**We are now a "Full Line" Distributor!**

**Industrial Automation**

Our product brands:  
IMI Norgren  
IMI Bimba  
IMI Bahr

**Now offering all IMI brands, including Bimba!**

IMI has been a leader in the fluid and motion control industry for over 55 years. The rebranding of Norgren and Bimba to IMI reflects their commitment to continuous improvement and innovation, while honoring their legacy of providing industry-leading solutions in pneumatics, hydraulics, and automation. The renowned brands IMI Norgren and IMI Bimba have long been synonymous with precision engineering and top-tier customer service. Under the IMI umbrella, these brands continue to thrive, offering the same trusted products and solutions customers have come to rely on. **Call us now to talk about how products from Bimba, Norgren or Bahr can solve your automation needs!**

A dependable partner in hydraulic power technology, providing variable displacement axial-piston pumps and specialty valves for a wide range of demanding applications.

Continental offers hydraulic components and solutions, including sub-base and stackable solenoid valves, proportional valves, fixed and variable vane pumps, and a range of piston pumps. Ask about our large local

**SICK** is a global leader in the manufacture of Photoelectric, Inductive, and Capacitive Proximity Sensors, Safety Scanners, Light Curtains, Barcode, Vision, Encoders & more. Call our SICK Expert with your questions!

WAGO is focused on electrical interconnection, automation and interface electronic technologies, offering PLCs, Remote I/O systems, power supplies, relays, and terminal blocks to connect your world.

Structural Aluminum Extrusions (T-slot) for machine frames, bases and guarding. Build it yourself or let Tec-Hackett help design and build your project for you!

Precision pneumatic and hydraulic cylinders built specifically for your application, including tie-rod, telescopic, NFPA standard and full custom solutions based on your specifications.

Hydreco Hydraulics is a leading provider of motion control solutions for mobile hydraulic applications, offering gear pumps, directional control valves, pilot controls, PTOs and more.

ABB is one of the world's largest providers of AC and DC electrical products, including variable frequency drives, soft starters, contactors, motors, low voltage controls and more. Call our ABB Drives Expert with your questions!

Meltric is a provider of a complete range of engineered plugs and receptacles, including the Decontactor series, a switch rated product that provides worker safety and simplifies NFPA 70E compliance.

Schroeder offers industrial filtration solutions which enable customer success in the areas of hydraulic fluids, lubricants, fuels and process, including diagnostic monitoring and analysis.

## Other Products Distributed by Tec-Hackett, Inc.

### Electrical

Autonics  
 Canfield Connector  
 Dongan Transformers  
 Hammond  
 Laurel Electronics  
 Linemaster  
 Lovato Electric  
 Mencom  
 Nolatron  
 Patlite  
 Pfannenberg  
 Trans Coil International (TCI)  
 Unitronics

### Hydraulic

Anchor Fluid Power  
 Emmegi Heat Exchangers  
 Geartek  
 LDI Industries  
 Thermal Transfer Products  
 Universal Components, Inc. (UCI)

### Value Added Services

Do you need some extra hands assembling valve manifolds, filter-regulators, or wiring an electrical panel? Tec-Hackett's shop can help! Discuss your next project to your local Account Manager to see how we can be of assistance!

### Pneumatic

ATP  
 Alumi-Tec  
 Anver  
 Barrington Automation  
 Eagle Power Tools  
 Ingersoll Rand / ARO

### Other Automation

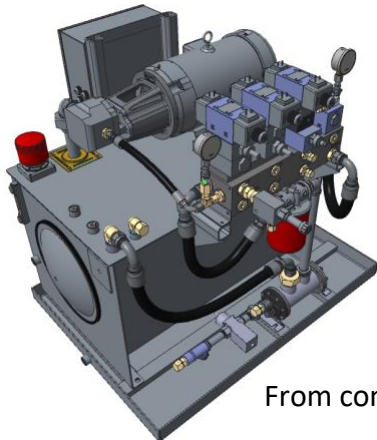

Bijur  
 Destaco  
 Desoutter  
 Nidec-Shimpo  
 Sprague Products

## Tec-Hackett Engineered Systems

Tec-Hackett has the technical resources to design and build system solutions to your hydraulic power unit's (HPU) specifications. We use modern CAD software to create custom HPUs that can not only power your machine, but seamlessly fit into your creative design and space requirements. Our HPUs are fully assembled and tested at our Fort Wayne, IN fabrication facility, and can be painted to match your company's color scheme.

In addition to design and assembly, Tec-Hackett's on-staff Hydraulics Specialists can assist you with your troubleshooting needs. Let us be your problem solvers!

Ask your local Account Manager for more details on Tec-Hackett's HPU capabilities.

From concept...

...to reality.
